NEET PYQ

Chapter 13 : Biodiversity and Conservation

1. Which one of the following is an example of ex-situ conservation? [NEET-2025]

- | | |
|--------------------------------|------------------------|
| (1) National Park | (2) Wildlife Sanctuary |
| (3) Zoos and botanical gardens | (4) Protected areas |

2. Match List I with List II: [NEET-2025]

List I	List II
A. The Evil Quartet	I. Cryopreservation
B. Ex situ conservation	II. Alien species invasion
C. Lantana camara	III. Causes of biodiversity losses
D. Dodo	IV. Extinction

Choose the option with all correct matches.

- (1) A-III, B-II, C-I, D-IV
(2) A-III, B-I, C-II, D-IV
(3) A-III, B-IV, C-II, D-I
(4) A-III, B-II, C-IV, D-I

3. The regions with high level of species richness, high degree of endemism and a loss of 70% of the species and habitat are identified as: [Re-NEET-2024]

- | | |
|---------------------------|-----------------------------|
| (1) Natural Reserves | (2) Sacred Groves |
| (3) Biodiversity Hotspots | (4) Biogeographical Regions |

4. Which one of the following is not included under in-situ conservation? [Re-NEET-2024]

- | | |
|-------------------------|----------------------|
| (1) Wild-life sanctuary | (2) Botanical garden |
| (3) Biosphere reserve | (4) National park |

5. Cryopreservation technique is used for : [Re-NEET-2024]

- (1) Protection of environment
(2) Protection of Biodiversity hotspots
(3) Preservation of gametes in viable and fertile condition for a long period
(4) In-situ conservation

6. Match List-I with List-II:

[Re-NEET-2024]

List-I

List-II

A. Biodiversity hotspot

I. Khasi and jantia hills in Meghalaya

B. Sacred groves

II. World Summit on Sustainable

C. Johannesburg South Africa

III. Parthenium

D. Alien species invasion

IV. Western Ghats

Choose the correct answer from the options given below:

(1) A-IV, B-I, C-II, D-III

(2) A-II, B-III, C-IV, D-I

(3) A-I, B-IV, C-III, D-II

(4) A-III, B-I, C-II, D-IV

7. List of endangered species was released by

[NEET-2024]

(1) GEAC

(2) WWF

(3) FOAM

(4) IUCN

8. The type of conservation in which the threatened species are taken out from their natural habitat and placed in special setting where they can be protected and given special care is called

[NEET-2024]

(1) in-situ conservation

(2) Biodiversity conservation

(3) Semi-conservative method

(4) Sustainable development

9. The capacity to generate a whole plant from any cell of the plant is called:

[NEET-2024]

(1) Totipotency

(2) Micropropagation

(3) Differentiation

(4) Somatic hybridization

10. Tropical regions show greatest level of species richness because

[NEET-2024]

A. Tropical latitudes have remained relatively undisturbed for millions of years, hence more time was available for species diversification.

B. Tropical environments are more seasonal.

C. More solar energy is available in tropics.

D. Constant environments promote niche specialization.

E. Tropical environments are constant and predictable.

Choose the correct answer from the options given below.

(1) A, C, D and E only

(2) A and B only

(3) A, B and E only

(4) A, B and D only

11. These are regarded as major causes of biodiversity loss:

[NEET-2024]

- A. Over exploitation
- B. Co-extinction
- C. Mutation
- D. Habitat loss and fragmentation
- E. Migration

Choose the correct option:

- (1) A, C and D only
- (2) A, B, C and D only
- (3) A, B and E only
- (4) A, B and D only

12. Match List I with List II

[NEET-2024]

List I

List II

- | | |
|---------------------------|---|
| A. Robert May | I. Species-Area relationship |
| B. Alexander von Humboldt | II. Long term ecosystem experiment using out door plots |
| C. Paul Ehrlich | III. Global species diversity at about 7 million |
| D. David Tilman | IV. Rivet popper hypothesis |

Choose the correct answer from the options given below:

- (1) A-II, B-III, C-I, D-IV
- (2) A-III, B-I, C-IV, D-II
- (3) A-I, B-III, C-II, D-IV
- (4) A-III, B-IV, C-II, D-I

13. The species of plants that plays a vital role in controlling the relative abundance of other species in a community is called _____. [NEET-2023-MANIPUR]

- (1) Exotic species
- (2) Keystone species
- (3) Alien species
- (4) Endemic species

14. In 'rivet popper hypothesis', Paul Ehrlich compared the rivets in an airplane to

[NEET-2023-MANIPUR]

- (1) Ecosystem
- (2) Genera within a family
- (3) Species within a genus
- (4) Genetic diversity

15. Which of the following is/are cause(s) of biodiversity losses? [NEET-2023-MANIPUR]
(1) Over-exploitation only
(2) Habitat loss and fragmentation only
(3) Over-exploitation, habitat loss and fragmentation
(4) Climate change only
16. Among 'The Evil Quartet', which one is considered the most important cause driving extinction of species? [NEET-2023]
(1) Habitat loss and fragmentation (2) Over exploitation for economic gain
(3) Alien species invasions (4) Co-extinctions
17. The historic Convention on Biological Diversity, 'The Earth Summit' was held in Rio de Janeiro in the year [NEET-2023]
(1) 1985 (2) 1992
(3) 1986 (4) 2002
18. Habitat loss and fragmentation, over-exploitation, alien species invasion and co-extinction are causes for: [NEET-2022]
(1) Natality (2) Population explosion
(3) Competition (4) Biodiversity loss
19. Which of the following is not a method of ex situ conservation? [NEET-2022]
(1) Cryopreservation (2) In vitro fertilization
(3) National Parks (4) Micropropagation
20. *In-situ* conservation refers to: [NEET-2022]
(1) Conserve only extinct species
(2) Protect and conserve the whole ecosystem
(3) Conserve only high risk species
(4) Conserve only endangered species
21. Give the correct descending order of organisms with reference to their estimated number found in Amazon forest. [Re-NEET-2022]
(a) Plants (b) Invertebrates
(c) Fishes (d) Mammals
(e) Birds
(1) (a) > (b) > (e) > (d) > (c)
(2) (a) > (c) > (d) > (b) > (e)
(3) (b) > (a) > (e) > (d) > (c)
(4) (b) > (a) > (c) > (e) > (d)

22. The World Summit on sustainable development held in 2002 in Johannesburg, South Africa pledged for: **[Re-NEET-2022]**

- (1) A significant reduction in the current rate of biodiversity loss.
- (2) Declaration of more biodiversity hotspots.
- (3) Increase in agricultural production
- (4) Collection and preservation of seeds of different genetic strains of commercially important plants.

23. Match List-I with List-II: **[Re-NEET-2022]**

List-I	List-II
(a) Sacred groves	(i) Alien species
(b) Zoological park	(ii) Release of large quantity of oxygen
(c) Nile perch	(iii) <i>Ex-situ</i> conservation
(d) Amazon forests	(iv) Khasi Hills in Meghalaya

Options:

- (1) (a)-(iv), (b)-(iii), (c)-(i), (d)-(ii)
- (2) (a)-(ii), (b)-(iv), (c)-(i), (d)-(iii)
- (3) (a)-(iv), (b)-(iii), (c)-(i), (d)-(ii)
- (4) (a)-(ii), (b)-(iii), (c)-(ii), (d)-(i)

24. Western Ghats have a large number of plants and animal species that are not found anywhere else. Which of the following term is used to notify such species? **[Re-NEET-2022]**

- (1) Threatened species
- (2) Keystone species
- (3) Endemic species
- (4) Vulnerable species

25. According to Robert May, the global species diversity is about : **[NEET-2020]**

- (1) 7 million
- (2) 1.5 million
- (3) 20 million
- (4) 50 million

26. Which of the following regions of the globe exhibits highest species diversity? **[NEET-2020]**

- (1) Amazon forests
- (2) Western Ghats of India
- (3) Madagascar
- (4) Himalayas

27. According to Alexander von Humboldt :

[NEET-2020(Covid-19)]

- (1) Species richness decreases with increasing area of exploration
- (2) Species richness increases with increasing area, but only up to limit
- (3) There is no relationship between species richness and area explored.
- (4) Species richness goes on increasing with increasing area of exploration

28. In the following in each set a conservation approach and an example of method of conservation are given

[NEET-2020(Covid-19)]

- (a) In situ conservation - Biosphere Reserve
- (b) Ex situ conservation - Sacred groves
- (c) In situ conservation - Seed bank
- (d) Ex situ conservation - Cryopreservation

Select the option with correct match of approach and method :

- (1) (a) and (c)
- (2) (a) and (d)
- (3) (b) and (d)
- (4) (a) and (b)

29. Which one of the following is not a method of in situ conservation of biodiversity ? [NEET-2019]

- (1) Biosphere Reserve
- (2) Wildlife Sanctuary
- (3) Botanical Garden
- (4) Sacred Grove

30. Which of the following is the most important causes for animals and plants being driven to extinction?

[NEET-2019]

- (1) Habitat loss and fragmentation
- (2) Drought and floods
- (3) Economic exploitation
- (4) Alien species invasion

31. The Earth Summit held in Rio de Janeiro in 1992 was called :

[NEET-2019]

- (1) to reduce CO₂ emissions and global warming.
- (2) for conservation of biodiversity and sustainable utilization of its benefits.
- (3) to assess threat posed to native species by invasive weed species.
- (4) for immediate steps to discontinue use of CFCs that were damaging the ozone layer.

32. Decline in the population of indian native fishes due to introduction of *Clarias gariepinus* in river Yamuna can be categorised as :-

NEET-2019(Odisha)]

- (1) Co-extinction
- (2) Habitat fragmentation
- (3) Over exploitation
- (4) Alien species invasion

33. Western Ghats have a large number of plant and animal species that are not found anywhere else. Which of the following terms will you use to notify such species? [NEET-2019(Odisha)]
- (1) Endemic (2) Vulnerable
(3) Threatened (4) Keystone
34. Exploration of molecular, genetic and species level diversity for novel products of economic importance is known as: [NEET-2019(Odisha)]
- (1) Biopiracy (2) Bioenergetics
(3) Bioremediation (4) Bioprospecting
35. All of the following are included in 'Ex-situ conservation' except [NEET-2018]
- (1) Wildlife safari parks (2) Sacred groves
(3) Botanical gardens (4) Seed banks
36. Which one of the following is related to Ex situ conservation of threatened animals and plants ? [NEET-2017]
- (1) Biodiversity hot spots (2) Amazon rainforest
(3) Himalayan region (4) Wildlife safari parks
37. Presence of plants arranged into well defined vertical layers depending on their height can be seen best in: [NEET-2017]
- (1) Tropical Rain Forest (2) Grassland
(3) Temperate Forest (4) Tropical Savannah
38. Alexander Von Humbolt described for the first time: [NEET-2017]
- (1) Laws of limiting factor
(2) Species area relationships
(3) Population Growth equation
(4) Ecological Biodiversity
39. Which is the National Aquatic Animal of India ? [NEET- I 2016]
- (1) Gangetic shark
(2) River dolphin
(3) Blue whale
(4) Sea-horse
40. Which of the following is the most important cause of animals and plants being driven to extinction ? [NEET- I 2016]
- (1) Over - exploitation
(2) Alien species invasion
(3) Habitat loss and fragmentation
(4) Co-extinctions

41. How many hot spots of biodiversity in the world have been identified till date by Norman Myers ?

(1) 34

[NEET- II 2016]

(2) 43

(3) 17

(4) 25

42. Red list contains data or information on :

[NEET- II 2016]

(1) threatened species

(2) marine vertebrates only

(3) all economically important plants

(4) plants whose products are in international trade

43. Which of following National Parks is home to the famous musk deer or hangul? [NEET- II 2016]

(1) Eaglenest Wildlife Sanctuary, Arunachal Pradesh

(2) Dachigam National Park, Jammu & Kashmir

(3) Keibul Lamjao National Park, Manipur

(4) Bandhavgarh National Park, Madhya Pradesh
